Application No.: 10/772,246

Docket No.: 20459-00346-US1

AMENDMENTS TO THE CLAIMS

Claims 1-7 (canceled).

- 8. (Previously presented) A pyrotechnical gas-generating composition comprising guanidine dinitramide and guanyl urea dinitramide.
- 9. (Presently amended) A pyrotechnical gas-generating composition according to claim 8, wherein the guanidine dinitramide is present as the primary component, and the rate of burning of the gas-generating composition is regulated by the presence of a suitable an amount of guanyl urea dinitramide.
- 10. (Previously presented) A pyrotechnical gas-generating composition according to claim 8, wherein the guanidine dinitramide comprises greater than 50% by weight of the gas-generating composition.
- 11. (Previously presented) A pyrotechnical gas-generating composition according to claim 8, wherein the gas-generating composition is in the form of pressed tablets containing a binder, the binder does not exceed 10 wt-%.
- 12. (Presently amended) A pyrotechnical gas-generating composition according to claim 8, wherein the gas-releasing substance composition is in tablet form.
- 14. (Previously presented) A pyrotechnical gas-generating composition according to claim 8, wherein the gas-releasing composition is a recrystallized form of a gas-releasing composition obtained from a safety device.
- 15. (Previously presented) A pyrotechnical gas-generating composition according to claim 8, wherein the guanidine dinitramide comprises 20% to 80% by weight of the gas-releasing composition, not including binder.

Application No.: 10/772,246

Docket No.: 20459-00346-US1

- 16. (Previously presented) A pyrotechnical gas-generating composition according to claim 8, wherein the guanidine dinitramide comprises 40% to 80% by weight of the gas-releasing composition, not including binder.
- 17. (Previously presented) A pyrotechnical gas-generating composition according to claim 8, wherein the guanidine dinitramide comprises 40% to 60% by weight of the gas-releasing composition, not including binder.
- 18. (Presently amended) A pyrotechnical gas-generating composition according to claim 8, wherein the gas-generating composition is used in part of an inflatable safety device.
- 19. (Previously presented) An inflatable safety device comprising a pyrotechnical gasgenerating composition according to claim 8.
- 20. (Previously presented) An inflatable safety device comprising a gas-generating composition comprising guanidine dinitramide and guanyl urea dinitramide, wherein the guanidine dinitramide comprises 20% to 80% by weight of the gas-releasing composition, not including binder.
- 21. (Previously presented) An inflatable safety device according to claim 20, wherein the gas-releasing substance is in tablet form.
- 22. (Previously presented) An inflatable safety device according to claim 20, wherein the guanidine dinitramide comprises greater than 50% by weight of the gas-generating composition.
